

Philippe Guettier

Dr. Philippe Guettier graduated at Garancière Dental School, Paris, in 1988. In 1989, he received a post-graduate certificate in Dental Biomaterials. In 1990, he was awarded a post-graduate certificate in Periodontology as well as a post-graduate certificate in Endodontics. In 1991, he received a degree in Master of Business Administration from the Paris Business Institute. He was part-time Assistant Professor at the Paris Dental School in 1990 and 1991 and worked in Dr. R. Grossman's Private Dental Practice from 1991 to 1995. In 1997, he was Sales & Marketing Director of Maillefer Instruments SA (Switzerland) for the world market. Since 1992, Dr. Guettier has participated in the research and development of endodontic products for Maillefer Instruments SA. Since January 1999, Dr. Guettier has returned to his full-time private dental practice while working as a consultant in the research and development of new products for Maillefer Instruments SA. Dr. Guettier has lectured on endodontic topics in Congresses and at Dental Schools extensively throughout the world.
